

## Office Locations

### Pasco, WA

1015 N. Oregon Ave.

509-547-3326

### Connell, WA

627 N. Columbia Industrial

509-234-3311

### Oroville, WA

615 11th Ave.

509-476-3610

### Ritzville, WA

1302 W. First Ave.

509-659-1532

### Spokane, WA

3727 N. Tschirley Road

509-535-1534

### Sunnyside, WA

106 N. 9th Street

509-837-5274

### Yakima, WA

1025 N. 6th Ave.

509-453-3920

## Xtreme Challenges.

### Conquer Winter With Xtreme Diesel Fuel.

To protect your diesel investment, use Power Service Xtreme Diesel in all your diesel equipment year-round.

### When does preparation for winter begin for us?

Let's just say it never stops. That's because we treat our fuel year-round. Every drop of Xtreme Diesel is optimized for peak performance and operability. Because we know that the key to a trouble-free winter begins well before the temperature drops below freezing.

Water is the No. 1 problem in diesel fuel. A water problem in the summer translates into an icing problem in the winter. Our fuel quality standards require regular fuel tank testing and maintenance to address water and other contaminants. The year-round hygiene and cleanliness of our tanks are vital to winter performance.

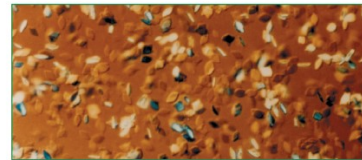

Also, Xtreme Diesel has the most technologically advanced cold-flow improvers that prevent fuel-filter plugging. By modifying the size and shape of the wax crystals so they remain small enough to flow through fuel-filters without plugging, this allows for trouble-free operation during even the coldest winter months.

### Xtreme Diesel cold-flow improvers modify the wax in diesel fuels.

Untreated

Treated

In addition to superior cold-weather operability, Xtreme Diesel contains:

**+CETANE BOOST**  
For more power, faster cold starts and improved MPG

**SLICK DIESEL Lubricator**  
For maximum fuel lubrication – protects pumps and injectors from accelerated wear

**HPCR Detergent Technology**  
For peak injector performance, including High Pressure Common Rail systems

### Xtreme Diesel is Technology Transformed Fuel.

**Performance**  
Maximize power and fuel economy

**Winterization**  
Winterize diesel fuel

**Fuel Tank Hygiene**  
Maintain fuel and tank cleanliness
